

ABSTRACT OF THE DISCLOSURE

This invention ~~is related~~ relates to a UK 14599

A ~~Disclosed herein is an improved~~ ^{An} stable injection
paclitaxel ^{Formulation having} ~~formulation. The formulation comprises~~
5 polyoxyethylene sorbitol oleic polyester as a main
solubilizer, and appears to have less toxicity and greater
stability compared to polyethoxylated castor oil-containing
formulation which is clinically used all over the world.
